

A Journey with our Ancestors: History and Nature between Trento and Verona

Including:

Grotta di Fumane
Science Museum of
Trento (MUSE)

A journey from the past into the future, discovering a corner of Italy surprisingly rich in history, nature and fun.

Visit the new Science Museum of Trento (MUSE) and learn about the interactions between the Alpine people and their environment through time and space; the Dalmeri Rock Shelter, a fabulous prehistoric treasure trove; the beautiful historic city of Verona and the nearby Fumane Cave, where even the Neanderthals left their traces.

DAY 1 TRENTO

In the morning, arrival in Trento. Visit the MUSE, the new Science Museum of Trento, opened in 2013 and designed by the famous architect Renzo Piano. Discover its characteristic exhibition galleries and the singular relationship between man and nature since Prehistory, both locally and globally. In the afternoon, enjoy a guided or free visit of the old historical center of Trento, the fascinating city of the Prince Bishop, with its architectural beauties such as the Buonconsiglio Castle. Dinner at a traditional restaurant in Trento. Overnight stay in Trento or a village in the nearby Valsugana valley.

Valsugana Tourist Information: www.visitvalsugana.it/en

DAY 2 GRIGNO

Guided tour (min. 13 people and between May and October only) to the unique archeological site Dalmeri Rock Shelter on the Marcesina plateau in Grigno, province of Trento, including a lunch with typical local food at Rifugio Barricata. The most exciting discoveries at the Dalmeri were the identification of a structure, probably residential, and 265 stones painted in red ochre that lead to new interpretations on the art and spirituality of the ancient hunter-gatherers living in the uplands of the Prealps.

Overnight stay at Rifugio Barricata, in Trento or Valsugana.
